

BUSINESS ANALYST

Job Overview:

We are looking for a passionate and detail-oriented Business Analyst to join our team. This role is ideal for candidates with a background in IT communication who are ready to take on full BA responsibilities and grow in a dynamic, client-facing environment.

Key Responsibilities:

- Work closely with clients to gather, analyze, and document business requirements.
- Translate business needs into clear functional and non-functional specifications.
- Create and maintain documentation such as BRD, FRD, use cases, and process flows.
- Collaborate with development, QA, and project management teams throughout the SDLC.
- Support product backlog grooming and sprint planning in Agile environments.
- Facilitate meetings, workshops, and presentations with stakeholders.
- Assist in UAT planning and execution, ensuring solutions meet business expectations.
- Continuously improve processes and contribute to product and service enhancements.

Requirements:

- **1+ years of experience as Business Analyst, IT Communicator/Translator** or similar role in an IT project environment.
- Strong communication skills in **Thai and English**
- Basic understanding of software development and IT systems.
- Eagerness to learn and take on full BA responsibilities.
- Strong analytical thinking and problem-solving skills.
- Ability to work independently and as part of a team.

Benefits:

- Attractive salary package based on experience and performance, with regular reviews and growth opportunities.
- Holiday bonus provided annually, including Tet bonus and other festive allowances
- Premium Healthcare Insurance, Health Check-up Examination
- Continuous development of technical and soft skills professional training courses.
- Opportunity to approach the newest technology trends
- Yearly Company Trip, Quarterly Team Building and over events...
- Working Time: Monday - Friday
